ABSTRACT OF THE DISCLOSURE

A1 Database item versioning, such as items like stored
procedures found in databases such as Standard Query Language
(SQL) databases. In one embodiment, a program such as an editor,
5 a database, a source and a mechanism. An editor program provides
for editing a stored procedure. The databases includes the
stored procedure. The SCC system stores versions of the stored
procedure. The mechanism checks in and checks out the stored
procedure to provide for effective versioning thereof.
